EU REACH Regulation

Regarding the European Union Regulation 1907/2006 of December 18, 2006 (Registration, Evaluation, Authorization, and Restriction of Chemicals), Under normal operation, Astrodyne Corporation products do not release substances into the environment and the usage is less than 1 ton per year. In addition, the SVHC substances (specified on the ECHA candidate list for inclusion) do not exceed the allowable threshold of 0.1% by weight.

Comment: The above compliance statements are based on Astrodyne Corporation's best information resulting from supplier surveys, supplier provided data, some laboratory testing, and a reasonable level of "due diligence". We believe the information is accurate as of the date indicated on this document. However, because most of the information is based upon data provided from sources outside the Company. Astrodyne Corporation makes no representation or warranty as to the accuracy of such information. Astrodyne Corporation continues to work towards obtaining valid and certifiable third-party information on all purchased materials and components. In no event shall Astrodyne Corporation's liability arising out of such information exceed the selling price of the product sold.
